Members of the Municipal Services Committee,

"In a major speech last week, U.N. Secretary General António Guterres called out **fossil fuel companies** for ignoring their own scientists, spreading climate denial, and **advancing a business model that "is inconsistent with human survival."** (source: Center for Climate Integrity).

As leaders of our city, how can you not act in favor of transitioning to an all electric municipal fleet As Soon As Possible?

And for a swift transition to carbon FREE sources of power production, certainly by 2030. If other cities with municipal power companies can do it, so can Pasadena.

Lead the way. Put Pasadena in the front of the movement to a clean carbon free city!

Thank you,
Kathy Berlin

I support City purchasing zero emission vehicles.

When possible, **purchase EVs made in the USA**. The Ford Mustang Mach E - despite it's name - is not.

By purchasing Mach-E's, you are supporting Ford. This does not support American made products, or American manufacturing jobs.

Mustang Mach-E celebrates one year of production in Mexico

5 November, 2021

STATE OF MEXICO. – Ford celebrates one year of Mustang Mach-E production in Mexico, the firm's first electric vehicle made in Mexico for the rest of the world, as part of the 57th anniversary of Ford Cuautitlan, the first plant to mass-produce an electric vehicle in Mexico.
