1. **Project Name:** Annual Citywide Street Resurfacing and ADA Improvement Program
FY 2023/2024

Total Estimated Project Cost: \$5,500,000

FY 2024 RMRA Fund Appropriation Amount: \$2,800,000

Description: This project provides for resurfacing or microsurfacing work on 23 streets (24 street segments) throughout the City for a total of 7.13 centerline miles. This resurfacing project will utilize rubberized asphalt, a noise-reducing pavement material that consists of a regular asphalt concrete mixed with crumb rubber made from recycled tires. This sustainable paving practice diverts tires from the waste stream, with this project having the capacity to divert over 10,000 tires from landfills. In addition, rubberized asphalt pavement lasts longer, is more resistant to cracking, reduces vehicle noise, provides for better skid resistance, and retains a darker color that provides contrast to new pavement markings.
