Subject: City Council Public Comment - Agenda Items 11, 12 - Support for Wind Contract and Battery Contract

Dear City Council Members,

Our names are Jamie Scott and Felix Breden.
We are residents of Pasadena District 6.

We urge you to vote in favor of Agenda Items 11 & 12 in an ongoing effort to achieve the goals of Resolution 9977.

However, we also ask that you inquire about the following:

- 1) Whether there exists a **Glenarm Master Plan** to ensure that any projects being planned for this highly valuable space are intentionally designed to optimally achieve the carbon free goal;
- 2) Whether there is any option for recourse from the Special Purpose Entity contracted for the **Battery Storage Contract** should any issues arise;
- 3) Whether the Battery Storage Contract will be taking advantage of the **Inflation Reduction Act's Production Tax Credit / Investment Tax Credit**;
- 4) Whether the current **Cost of Service Study** will be considering **the reduction/elimination of fixed fees** to incentivize conservation and reduce the burden on lower income rate payers.

We appreciate your work on behalf of Pasadena's citizens!!

Thank you for considering these requests!

Jamie & Felix
