Councilmember Hampton noted a previous matter related to fire sprinklers, and advocated for the City to review the building safety regulations for sprinklers that would allow certain schools to build temporary structures without having to meet such requirements (in response to the impacts of the Eaton Fire).

Mayor Gordo noted that the proposed ordinance is a standard annual procedure, and he recalled that City staff raised concerns regarding reducing requirements or changing the City's safety regulations when the matter was previously discussed. City Manager Márquez added that City staff worked with the school that was at issue and reached an accommodation for them. Jennifer Paige, Planning Director, noted that the City Council may have a separate discussion on reduced safety regulations for temporary structures for schools through the appropriate City Council Committee.
