QUASI-JUDICIAL ACTION: APPEAL OF THE BOARD OF ZONING APPEALS' QUASI-JUDICIAL DECISION TO APPROVE MINOR CONDITIONAL USE PERMIT NO. 7318 TO ESTABLISH A SAFE PARKING LAND USE AT EXISTING RELIGIOUS FACILITY (ALL SAINTS CHURCH) AT 202 NORTH EUCLID AVENUE (Planning Dept.)

Recommendation: It is recommended that the City Council:

- (1) Find that the action proposed in the agenda report to be categorically exempt from the environmental review pursuant to State CEQA Guidelines section 15301 (Class 1, Existing Facilities), and there are no features that distinguish that project from others in the exempt classes, and therefore, there are no unusual circumstances; and
- (2) Adopt the findings in Attachment A of the agenda report to uphold the Board of Zoning Appeals' decision and approve Minor Conditional Use Permit No. 7318, with the conditions in Attachment B of the agenda report.

City Clerk Jomsky reported that 32 postcards were mailed on November 3, 2025. He also reported that 12 letters advocating for the City Council to deny the appeal and uphold the hearing officer's decision to approve the minor conditional use permit and/or support the Safe Parking program partnership with the Shower of Hope and All Saints Church, 2 letters advocating for the City Council to grant the appeal and expressing concerns with the Safe Parking program proposed by All Saints Church and advocating for reasonable mitigative measures, and 1 letter providing information related to the Safe Parking program and Shower of Hope, were all received by the

City Clerk's Office, distributed to the City Council, posted online, and made part of the public record for this item.

Planning Director Paige provided introductory comments on the item and background information regarding the Board of Zoning Appeals considerations on the item. Alison Walker, Planner, presented a PowerPoint presentation on the Safe Parking program, the proposed project, appeals submitted, and responses to appeals.

Erica Tamblin, representative for the applicant, advocated for the City to approve the proposed Minor Conditional Use Permit (MCUP) for the Safe Parking program and spoke on the need to offer vulnerable members of the community a safe resting space. Mel Tillekeratne, representative of Shower of Hope, spoke on the operations of the Safe Parking program and partnership with the Shower of Hope.

Silvio Nardoni, representing the appellant, expressed concerns relating to the residency of those utilizing the Safe Parking program (not being from Pasadena), potential consequences pertaining to the safety and environment of the surrounding communities, and the lack of effectiveness for addressing homelessness. Jennifer Erickson, representing the appellant, advocated for all parties to work together to address the concerns raised by the community.

Mel Tillekeratne spoke on the benefits offered by the Safe Parking Program that help prevent vulnerable individuals from residing on streets.

In response to Councilmember Jones' inquiries regarding the operations of the existing Safe Parking program at Trinity Lutheran Church, Pastor Richter reported that the average stay varies by individual and noted that the program operates year-round.

In response to Councilmember Jones' inquiry regarding the calls for service related to the Safe Parking program at Trinity Lutheran Church, Planner Walker reported that between March 2024 and September 2025, there were 31 calls for service related to Trinity, however, the Police Department did not determine if the calls were related to the Safe Parking program itself. She also noted that there have not been any Code Enforcement complaints at Trinity while the program has been in operation.

In response to Councilmember Jones' inquiry regarding an additional security guard to appease residents' concerns for safety, Mr. Tillekeratne reported that the costs of hiring an additional security guard for the program would not be financially feasible.

In response to Councilmember Cole's inquiry regarding community outreach on the applicant's part for the Safe Haven program, Ms. Tamblin reported that the homeowner's association was invited to participate in their weekly meetings. Ms. Tamblin also reported that when the Safe Parking program was implemented, community meetings were set up and postcards and mailers were sent out. She also briefly explained that one of the conditions of their permit is to post contact information should a problem arise.

In response to Councilmember Masuda's inquiry regarding the training received by the security guards for the parking lot, Mr. Tillekeratne reported that the guards receive one week of training and only carry pepper spray.

Councilmember Jones suggested possibly reallocating the monthly \$25,000 for the Safe Parking program to rental assistance for unhoused individuals. Mr. Tillekeratne stated that while the funds could be reallocated towards rental subsidies, the funds do not account for the time it takes to find an acceptable rental unit, the services a client may require before being connected to housing, potential medical needs, and securing employment.

Councilmember Cole suggested that the Planning Department work in tandem with the Police Department to monitor all incoming complaints related to the Safe Parking program prior to the mandatory six-month hearing as conditioned by the Board of Zoning Appeals for the proposed MCUP.

In response to Councilmember Lyon's inquiry regarding where Pasadena's unhoused population is from, Jennifer O'Reilly-Jones, Program Coordinator, reported that over half of those experiencing unhoused homelessness in the City are originally from Pasadena, with the data also indicating that they were permanently housed in the City for an average of 19 years before losing their housing.

In response to Councilmember Lyon's inquiry regarding conflicts between the use of the parking lot for the Safe Parking program and the City's Zoning Code, Planning Director Paige confirmed that the church is allowed to lease the parking lot that they own, with no other affiliations, outside of normal operation hours for the purposes of the Safe Parking program.

In response to Mayor Gordo's inquiry regarding medical services for those utilizing the program, Mr. Tillekeratne reported the Shower of Hope partners with LA County Department of Health's mobile clinic that provides comprehensive blood testing during the day.

In response to Mayor Gordo's inquiry regarding whether the MCUP runs with the land, Planning Director Paige confirmed that CUP's are tied to the property itself and noted that safe parking is an accessory use to the specific primary uses of religious facility sites, colleges, and transportation parking terminals.

MOTION:

It was moved by Councilmember Lyon, seconded by Councilmember Hampton, to close the public hearing. (Motion unanimously approved) (Absent: Councilmember Madison)

Councilmember Lyon expressed support for the staff recommendation after finding that the parking lot is suitable for safe parking and that those utilizing the lot are primarily high functioning, employed unhoused individuals.

Vice Mayor Rivas expressed support for the staff recommendation and emphasized that the purpose of the Safe Parking program is to prevent unhousing individuals from ending up on streets with worsened quality of life and public safety issues.

Mayor Gordo emphasized the need to identify alternative solutions to housing individuals rather than having them live in their cars in parking lots. He suggested repurposing the funds for the safe parking program and working with local nonprofits and, if needed, outside nonprofit organizations to find housing alternatives. He also expressed concerns regarding the safety and welfare for the current residents in the community, as well as the unhoused individuals, as presented to the Board of Zoning Appeals.

Discussion ensued regarding alternative approaches to housing unhoused individuals, such as motel vouchers.

Vice Mayor Rivas suggested bifurcating the staff recommendations, and stated her intent to move to approve the CEQA findings.

In response to Councilmember Jones' inquiry regarding the CEQA findings and the Board of Zoning Appeals' decision, City Attorney Bagneris reported that if there are sufficient City Council votes to overturn the Board of Zoning Appeals' decision, then the MCUP for the Safe Parking program would not be approved. If there are insufficient City Council votes to take an action on the MCUP, then the Board of Zoning Appeals' decision would stand, and the MCUP for the Safe Parking program would be approved. With regard to the CEQA finding, if there are not five affirmative votes of the City Council to make the CEQA finding, then the CEQA findings are not deemed approved. The project cannot be approved without CEQA findings.

Vice Mayor Rivas expressed that there has not been an issue raised with the CEQA finding and stated her support for the CEQA findings.

Discussion ensued regarding whether the proposed project is categorically exempt from CEQA and potential unusual circumstances of the project. In response to Mayor Gordo's inquiry regarding what may be classified as an unusual circumstance, Caroline Monroy, Assistant City Attorney, reported that such circumstances for environmental impacts are based on the specifications of a project, such as unusual topographical features like steep slopes.

In response to Councilmember Jones' inquiry regarding if the appellant made an argument for why the proposed project does not qualify for a CEQA exemption, City Attorney Bagneris noted that the public hearing would need to be reopened to hear from the appellant.

MOTION:

It was moved by Councilmember Jones, seconded by Councilmember Cole, to reopen the public hearing.

AYES: Councilmembers Cole, Hampton, Jones, Masuda, Mayor Gordo

NOES: Councilmembers Lyon and Vice Mayor Rivas

ABSENT: Councilmember Madison

ABSTAIN: None

Strefan Fauble, appellant, argued that the proposed permit does not meet CEQA findings because it calls for a change of use. He also noted that the idling cars produce exhaust, the expansion of use would increase pollutants, and that the parking lot is a commercial parking lot.

Planning Director Paige clarified that the Safe Parking program is an accessory program to the primary use of the parking lot. She noted that the use for safe parking is not allowed in the Zoning Code unless it is accessory to other specific primary uses, which in this case is religious facilities.

MOTION:

It was moved by Councilmember Cole, seconded by Councilmember Lyon, to close the public hearing. (Motion unanimously approved) (Absent: Councilmember Madison)

In response to additional inquiries from the City Council, Planning Director Paige further clarified that City staff recommended use of the parking lot after hours would be considered a negligible expansion of the use under the CEQA exemption. She also confirmed that CEQA findings are limited to environmental adverse impacts.

MOTION:

Following discussion, it was moved by Vice Mayor Rivas, seconded by Councilmember Lyon, to adopt the CEQA findings.

AYES: Councilmembers Cole, Lyon, Masuda, Vice Mayor Rivas
NOES: Councilmembers Hampton, Jones, Mayor Gordo
ABSENT: Councilmember Madison
ABSTAIN: None

MOTION FAILED.

City Attorney Bagneris reported that the proposed project cannot be approved unless member of the Council makes a motion to reconsider the CEQA findings. She also noted that the City Council may take precautions and make a motion to either uphold or reverse the Board of Zoning Appeal's decision on the merits. She confirmed that a motion for reconsideration on the CEQA findings would be appropriate to be made at the same meeting if the City Council wishes to reopen and continue the public hearing to a future date.

Discussion ensued regarding the local homelessness emergency, whether or not the proposed project has environmental impacts, and having City staff work to identify shelter alternatives to safe parking.

Councilmember Cole noted the absence of Councilmember Madison and requested that the public hearing be continued to a future City Council meeting to provide an opportunity for the full City Council to make a determination on the matter.

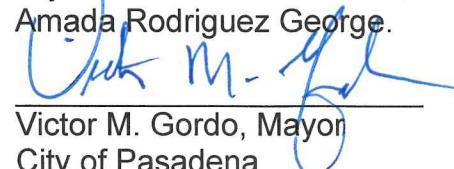

MOTION: Following discussion, it was moved by Vice Mayor Rivas, seconded by Councilmember Lyon, to reopen and continue the public hearing to January 12, 2026, at 6:00 p.m.

AYES: Councilmembers Cole, Lyon, Masuda, Vice Mayor Rivas
NOES: Councilmembers Hampton, Jones, Mayor Gordo
ABSENT: Councilmember Madison
ABSTAIN: None

MOTION FAILED.
