REPORTS AND COMMENTS FROM COUNCIL COMMITTEES

Municipal Services Committee

APPROVE THE OPTIMIZED STRATEGIC PLAN ESTABLISHING AN ACTION PLAN TO ACHIEVE THE GOALS SET FORTH BY CITY COUNCIL-ADOPTED RESOLUTION 9977 (Water & Power Dept.)

Recommendation: It is recommended that the City Council:

- (1) Find that the action in the agenda report is statutorily exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15262; and
- (2) Adopt and approve Pasadena Water and Power's (“PWP”) Optimized Strategic Plan (“OSP”), Attachment 1 of the agenda report, outlining actionable steps to meet the goals set forth by City Council-adopted Resolution 9977.

Recommendation of the Municipal Services Committee: On November 5, 2025, the Municipal Services Committee (“MSC”) recommended that the City Council adopt and approve PWP's OSP, with five revisions:

1. Clarify that the goal of the OSP is to reach carbon-free on an hourly basis, supporting Resolution 9977;
2. Increase the goal for Additional Local Solar Resources from 50 Megawatts (“MW”) to 70 MW with at least 50 MW coming from PWP customers;
3. Include a timeline for incentives, initiatives, and an education campaign to increase the adoption of local solar;
4. Remove references to proposed changes to Net Energy Metering (“NEM”); and
5. Provide additional narrative regarding the viability of hydrogen as an emerging technology.

The recommended revisions provided by the MSC have been incorporated into the attached Optimized Strategic Plan. In addition to the changes to the OSP, the MSC also asked staff to return with a discussion on staffing and implementation; an increase to the maximum solar capacity from 150% to 200% of annual usage; consideration of Community Solar Projects within the Utility's annual 5-Year Capital Improvement Program; and a discussion of programs funded by the Public Benefit Charge.

David Reyes, General Manager of Water & Power, presented a PowerPoint presentation on the item, providing information on the discussions and recommendations from MSC.

In response to Councilmember Jones' inquiry regarding potential solar incentives, General Manager Reyes reported that City staff will return to MSC with information on the City's incentives that might supplement the loss of federal tax credits that recently expired.

In response to Councilmember Jones' inquiry regarding the restructuring plan for implementation, General Manager Reyes reported that City staff is exploring in-house staffing options in combination with outside consultants due to the large municipal scale of the project implementation.

Councilmember Lyon thanked City staff, the Technical Advisory Panel, and the community members that played a role in the development of the proposed optimized strategic plan.

Councilmember Madison also suggested that City staff include verbiage regarding hydrogen as an emerging technology in the resolution.

In response to Mayor Gordo's inquiry regarding the market for solar providers, General Manager Reyes reported that the market is full of providers and contractors that are ready and willing to install solar. He noted that it is a matter of educating and identifying the appropriate solar needs.

The following individuals expressed support for the proposed optimized strategic plan and/or suggested additional recommendations to the plan:

Martha Zavala, League of Women Voters Pasadena
Teresa Wong, San Gabriel resident
Simon Anuszczyk, Pasadena resident
Cynthia Cannady, Pasadena resident
Rex Mayrelis, Pasadena resident
Yadi, Pasadena resident

The following individuals expressed concerns with the proposed optimized strategic plan and/or provided comments regarding the implementation of resources during the final year of the plan:

Sam Berndt, Pasadena resident
Jamie Scott, Pasadena resident
Felix Breden, Pasadena resident

In response to Mayor Gordo's inquiry regarding the City's ability to regulate performance standards of solar providers, General Manager Reyes reported that the City has certain standards with respect to how solar is installed, however, the City does not have guaranteed performance standards because that matter is between a private property owner and the contractor.

Councilmember Madison suggested that City staff consider developing a list of approved solar vendors as a resource to residents viewed as responsible and diligent vendors. Following discussion, Vice Mayor Rivas suggested including helpful data on PWP's website identifying solar vendors active in past year, permits that have been issued, etc., that may help residents when selecting a vendor for solar energy.

Kelly Nguyen, Assistant General Manager, provided a brief overview of PWP's leadership in green energy and accomplishments over the past decade.

The City Council thanked City staff, the Municipal Services Committee, and community members for their collaborative efforts and working towards accomplishing the goals set forth in the City-Council adopted Resolution 9977.

MOTION:

Following discussion, it was moved by Councilmember Jones, seconded by Councilmember Hampton, to approve the staff recommendations, with the inclusion of the MSC recommendations, adding Resolution No. 9977 to the optimized strategic plan document, and for City staff to provide quarterly updates to MSC to evaluate progress of the plan.

AYES: Councilmembers Cole, Hampton, Jones, Lyon, Madison, Vice Mayor Rivas, Mayor Gordo

NOES: None
