

ATTACHMENT B
EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-4-25

WHEREAS on January 7, 2025, I proclaimed a State of Emergency to exist in Los Angeles and Ventura Counties due to fire and windstorm conditions that have now caused multiple fires, including the Palisades, Eaton, Hurst, Lidia, Sunset, and Woodley Fires; and

WHEREAS on January 8, 2025, and January 10, 2025, I issued Executive Orders to bolster the emergency response to the rapid spread of these fires throughout Los Angeles and Ventura Counties; and

WHEREAS these fires have collectively burned over 39,000 acres, and these fires and windstorm conditions have devastated communities across the Greater Los Angeles Area and destroyed or damaged more than 12,000 structures, including homes and businesses, with initial estimates placing this emergency among the most destructive in California history; and

WHEREAS Los Angeles County is home to over 9.6 million people and constitutes one of the most vibrant and productive regions in the United States; and

WHEREAS the Los Angeles region has some of the highest housing costs in the country, with recent studies finding that a majority of Los Angeles County renters are burdened by paying more than 30 percent of their income on rent; and

WHEREAS the destruction of homes by the fires burning in Los Angeles and Ventura Counties will reduce the available housing in the region, which is likely to further increase the cost of housing and the related crisis of homelessness if housing is not expeditiously rebuilt; and

WHEREAS I am committed to helping families and individuals who have lost their homes and businesses rebuild and recover without facing unnecessary costs and delay; and

WHEREAS the State can expedite recovery from this disaster by eliminating barriers that unduly delay the rapid rebuilding of homes and other facilities destroyed or damaged by the extreme windstorm conditions and resulting fires; and

WHEREAS efforts to rebuild should include measures to increase community resilience, harden homes, and ensure defensible space to build resilience to future wildfires, to the greatest extent practicable; and

WHEREAS current law provides for certain waivers of state permitting and building codes, but additional streamlining is necessary to facilitate a rapid and resilient rebuild; and

WHEREAS under Proposition 13, and the Revenue and Taxation Code, the base year value of property that is substantially damaged or destroyed by a disaster, as proclaimed by the Governor, may be transferred to rebuilt property; and

WHEREAS my January 7, 2025, Proclamation of a State of Emergency triggered a California law that automatically restricts price gouging for building materials, housing and storage services, emergency supplies, and repair,

reconstruction, and emergency clean-up services when a state of emergency is proclaimed, but those protections expire after 30 to 180 days, depending on the good or service, and rebuilding efforts in the areas devastated by these fires will extend beyond that time; and

WHEREAS under the provisions of Government Code sections 8571, I find that strict compliance with various statutes and regulations specified in this Order would prevent, hinder, or delay the mitigation of the effects of these fires and windstorm conditions.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes, including the California Emergency Services Act, and in particular, Government Code sections 8567, 8571, and 8627, do hereby issue the following Order to become effective immediately.

IT IS HEREBY ORDERED THAT:

1. With respect to projects to repair, restore, demolish, or replace property or facilities substantially damaged or destroyed as a result of this emergency, and that satisfy the requirements provided in Paragraph 2, the following are suspended to the extent they would otherwise apply:

- a. The California Environmental Quality Act (Division 13 of the Public Resources Code, commencing with section 21000), and regulations adopted pursuant to that division; and
- b. Any requirement to obtain a permit under the California Coastal Act (Division 20 of the Public Resources Code, commencing with section 30000).

2. Paragraph 1 shall apply only to properties and facilities that are in substantially the same location as, and do not exceed 110% of the footprint and height of, properties and facilities that were legally established and existed immediately before this emergency.

3. The provisions of Penal Code section 396, subdivisions (b) and (c), prohibiting price gouging in times of emergency, shall remain in effect until January 7, 2026, for Los Angeles County. The time limitations under those subdivisions are hereby suspended.

4. The Department of Housing and Community Development (HCD), the Office of Land Use and Climate Innovation, the Office of Emergency Services, and the Department of General Services (DGS) shall, within 30 days, provide a report to me identifying other state permitting requirements that may unduly impede efforts to rebuild properties or facilities destroyed as a result of this emergency that should be considered for suspension, and shall update that report every 60 days, as appropriate and as recovery and rebuilding efforts proceed, to identify any additional permitting requirements that are posing barriers to rebuilding and that should be considered for suspension.

5. HCD, in consultation with DGS, the Office of the State Fire Marshal, and the California Energy Commission, shall, within 60 days, review and provide a report to me with recommendations regarding any provision of the Building Standards Code, Title 24 of the California Code of Regulations, that should be suspended for projects described in Paragraphs 1 and 2 in order to facilitate rapid, safe, and cost-effective rebuilding and recovery.

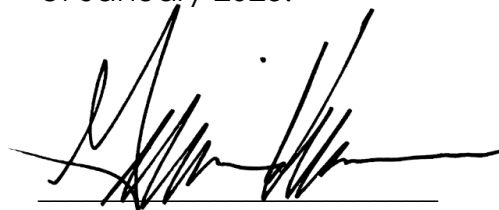

6. HCD shall coordinate with local governments to identify and recommend procedures, including but not limited to exploring the use of pre-approved plans and waivers of certain permitting requirements, to establish rapid permitting and approval processes to expedite the reconstruction or replacement of residential properties destroyed or damaged by fire. The recommended procedures shall have the ultimate goal of issuing all necessary permits and approvals within 30 days. HCD shall, within 60 days, provide a report to me identifying recommended updates to local government procedures that achieve these goals, and shall update that report every 60 days, as appropriate, to identify any additional permitting and approval requirements that are barriers to recovery and rebuilding efforts that should be removed.

7. My Administration shall collaborate with the Legislature to identify and propose statutory amendments that durably address barriers impeding rapid rebuilding efforts in the areas affected by this emergency, including potential legislation to incentivize the incorporation of additional fire hardening measures into rebuilding efforts and enhancements of fire mitigation and fire response capacity within rebuilt areas, and potential legislation based on any suspensions of statutes and regulations in this Order, or any subsequent order, or reports required under Paragraphs 4 through 6.

I FURTHER DIRECT that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 12th day of January 2025.

GAVIN NEWSOM
Governor of California

ATTEST:

SHIRLEY WEBER, PH. D
Secretary of State

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-20-25

WHEREAS on January 7, 2025, I proclaimed a State of Emergency to exist in Los Angeles and Ventura Counties due to fire and windstorm conditions that caused multiple fires, including the Palisades, Eaton, Hurst, Lidia, Sunset, Woodley, and Hughes Fires; and

WHEREAS these fires devastated communities across the Greater Los Angeles Area and collectively burned over 47,900 acres, destroying or damaging more than 16,250 structures, including homes, small businesses, and places of worship, with initial estimates placing this disaster among the most destructive in California history; and

WHEREAS since the fires began, I have issued several Executive Orders to provide relief to impacted communities, protect survivors and to expedite and aid recovery efforts, including orders streamlining permitting requirements to enable Los Angeles to build back quickly, and safer and more resilient than before; and

WHEREAS on January 12, 2025, I issued Executive Order N-4-25, which suspended the California Environmental Quality Act (CEQA) and permitting requirements under the California Coastal Act for projects to rebuild properties destroyed or substantially damaged by these fires, subject to certain conditions, in order to avoid procedural delay and costs for such rebuilding efforts; and

WHEREAS on January 16, 2025, I issued Executive Order N-9-25, which extended those suspensions to new accessory dwelling units on impacted properties and accelerated the occupancy of those units, and also suspended regulatory requirements to expedite the establishment of mobilehomes, manufactured homes, and recreational vehicles as temporary housing while rebuilding efforts on impacted properties proceed; and

WHEREAS Executive Order N-4-25 also directed various state agencies and departments to report back to me within 30 days on recommendations for further suspensions of state laws that may delay rebuilding efforts, and to engage affected local governments around recommended practices for expedited permitting and other approvals to support rapid rebuilding, to streamline and align review and approvals for rebuilding efforts as much as possible; and

WHEREAS state agencies and departments have completed their review under this directive and identified additional suspensions of state law related to construction and environmental permits that will facilitate rapid rebuilding efforts, and these suspensions, together with the suspensions in my prior orders, will facilitate implementation of the one-stop, streamlined permitting processes that local governments are launching for impacted property owners; and

WHEREAS additional clarity that local governmental approvals in the permitting process are determinative of eligibility for the Coastal Act and CEQA suspensions under my prior orders, along with further guidance to local governments around those approvals, will provide additional certainty to property owners that will further accelerate rebuilding efforts; and

WHEREAS the suspensions of the Coastal Act and CEQA in my prior orders, and as further clarified in this Order, provide the full scope of flexibility requested by the affected local governments to support rapid rebuilding efforts; and

WHEREAS although the regulatory suspensions regarding mobilehomes, manufactured homes, recreational vehicles, and mobilehome and special occupancy parks in Executive Order N-9-25 will significantly reduce barriers, the requirement to obtain a coastal development permit may interfere with expedited rehousing objectives; and

WHEREAS state law limitations on the duration of coastal development and building permits may impede local agency efforts to create a one-stop, streamlined permitting processes developed by agencies, and add time and expense to the rebuilding process; and

WHEREAS rebuilding can be further expedited by allowing homes that were recently approved for development under modern building safety standards, including fire protection standards, to rebuild to the approved specifications; and

WHEREAS state laws that impose affordability requirements when rebuilding on the site of a demolished structure, or constructing a new residence in the coastal zone, serve important goals to increase the supply of affordable housing, but may, in some circumstances, delay rebuilding if applied to homes that were substantially damaged or destroyed due to the emergency; and

WHEREAS property owners seeking to expedite rebuilding by using previously approved building plans may be unreasonably delayed in accessing those plans by regulation requiring local building departments to seek the consent of the professional who signed the original plans, particularly when those plans were submitted years before this emergency; and

WHEREAS state law requires local jurisdictions to periodically update their zoning ordinances to implement their housing element, including minimum density and development standards, but an extension of these deadlines will allow local staff in a jurisdiction affected by the emergency to focus fully on developing and implementing rebuilding efforts; and

WHEREAS under the provisions of Government Code sections 8571, I find that strict compliance with various statutes and regulations specified in this Order would prevent, hinder, or delay the mitigation of the effects of these fires and windstorm conditions.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes, including the California Emergency Services Act, and in particular, Government Code section 8567, 8571, and 8627, do hereby issue the following Order to become effective immediately.

IT IS HEREBY ORDERED THAT:

1. Paragraph 2 of Executive Order N-9-25 is terminated.
2. Paragraph 2 of Executive Order N-4-25 is terminated and replaced with the following:

Paragraph 1 of Executive Order N-4-25, which suspends the California Environmental Quality Act (Division 13 of the Public Resources Code,

commencing with section 21000), and regulations adopted pursuant to that division, and any requirement to obtain a permit under the California Coastal Act (Division 20 of the Public Resources Code, commencing with section 30000), for projects to repair, restore, demolish, or replace property or facilities substantially damaged or destroyed as a result of this emergency, shall apply only to:

- a. Primary structures and facilities that are in substantially the same location as, and do not exceed 110% of the footprint and height of, the primary structures and facilities that existed immediately before this emergency.
 - b. Accessory structures that do not exceed 110% of the footprint and height of the accessory structures that existed immediately before this emergency, and that are in substantially the same location relative to the primary structure as the accessory structures that existed immediately before the emergency. For properties subject to Coastal Commission Categorical Exclusion Order E-79-8, accessory structures covered by this subparagraph include accessory structures that are in substantially the same location relative to a primary residence as the accessory structures that existed immediately before the emergency, regardless of the size or location of the primary residence.
 - c. New accessory dwelling units on a residential property on which a primary residence was substantially damaged or destroyed as a result of this emergency, but only to the extent that such accessory dwelling units are built at least 10 feet from a canyon bluff or 25 feet from a coastal bluff.
 - d. Supportive infrastructure, including, but not limited to, foundation systems, utilities, and driveways, that is necessary to construct, install, or use the structures and facilities described in subparagraphs (a)-(c).
3. Structures and facilities described in subparagraphs (a)-(d) of Paragraph 2 are subject to the suspensions in Paragraph 1 of Executive Order N-4-25 only to the extent that they do not encroach on a public access easement or public access deed restriction, excluding any such easements or deed restrictions on the seaward side of structures or facilities on the beach, and only to the extent they do not expand farther into a previously approved public view corridor, farther into an open space deed restriction, or farther seaward on the beach than the structure or facility that existed immediately before this emergency.
 4. Local agencies that issue development and building permits for development projects shall be the sole agencies that may determine whether a property or facility is eligible for the suspensions in Paragraph 1 of Executive Order N-4-25 and meets the requirements of Paragraphs 2 and 3 of this Order, and local agency planning or permit approval shall be determinative of eligibility. Such determination shall not be appealable to the California Coastal Commission or to any other state executive agency or department, and contrary provisions of the California Coastal Act (Division 20 of the Public Resources Code, commencing with section 30000) are suspended. Local agencies may develop guidance and procedures for implementing this Paragraph. In making the determinations described by this Paragraph, local agencies may consider, but are not limited to using, prior building permits, certificates of

occupancy, county accessor data, Coastal Commission records, photographic sources, such as Google Maps and Light Detection and Ranging (LiDAR), and any other reasonably available sources of information accessible to the local agency.

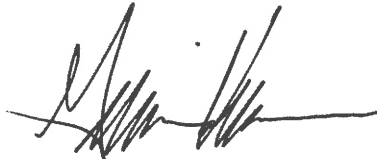

5. The provisions of the California Coastal Act requiring coastal development permits are suspended in Los Angeles County with regard to establishment, repair, or operation of a mobilehome park or special occupancy park, as well as replacement, installation, or repair of one or more mobilehomes, manufactured homes, or recreational vehicles located on privately-owned property when the lots are held out for rent or lease, or owner-occupied, or one or more mobilehomes, manufactured homes, or recreational vehicles located on privately-owned property when the lots are held out for rent or lease, or owner-occupied, as described in paragraph 5 of Executive Order N-9-25, for those persons displaced by this emergency and owners or operators of mobilehome or special occupancy parks providing housing for such displaced persons. This Paragraph shall apply only to the extent that any such development is not located within a public access easement or public access deed restriction, a previously approved public view corridor, or open space deed restriction. The suspensions in this Paragraph shall terminate three years from the date of this Order, after which time a local government agency may require the owner or operator of a mobilehome park or special occupancy park, or of a mobilehome, manufactured home, or recreational vehicle subject to the suspensions in this Paragraph, to obtain a coastal development permit, as applicable.
6. The expiration of any coastal development permit issued under the California Coastal Act is extended, and such permit shall continue to be valid without the need to apply for an extension, for an additional 3 years from the expiration date of such permit, with respect to projects involving properties or facilities that were substantially damaged or destroyed as a result of this emergency in Los Angeles County. To the extent any provision of the California Coastal Act, or any local ordinance authorized by the California Coastal Act, provides otherwise, it is suspended.
7. Any building permit issued for a project to repair, restore, demolish, or replace a structure or facility in Los Angeles County that was substantially damaged or destroyed as a result of this emergency shall be valid for three years from the date of issuance. To the extent it provides otherwise, Health and Safety Code section 18938.6 is suspended.
8. The reconstruction of residential dwellings that were originally designed and constructed to the 2019 California Building Standards Code and were subsequently destroyed as a result of this emergency in Los Angeles County may be permitted for reconstruction using the same design of the original dwelling that met the 2019 Codes without additional plan review at the discretion of the local enforcing agency. Any contrary provision of state law is suspended. Notwithstanding the foregoing, any applicable minimum elevation standards established in the 2022 California Building Standards Code and any subsequent updates (consistent with federal guidance on the implementation of the National Flood Insurance Program), and any applicable requirement to produce a required elevation certificate, shall continue to apply to dwellings subject to this Paragraph.

9. With respect to projects to repair, restore, demolish, or replace any residential dwelling units substantially damaged or destroyed as a result of this emergency:
 - a. Government Code section 65915, subdivision (c)(3)(B), and section 66300.5, subdivision (h)(2), are suspended in the City of Los Angeles to the extent those provisions would otherwise require a project to replace residential units subject to any form of rent or price control with units affordable to income-qualified households, provided that all of the rent- or price-controlled units are replaced in compliance with the jurisdiction's rent or price control ordinance consistent with section 65915, subdivision (c)(3)(C)(ii).
 - b. Government Code section 66300.5, subdivision (h)(3), is suspended in the City of Los Angeles to the extent it would otherwise require a project to replace residential dwelling units that are or were rented by lower or very low income households within the past five years, provided that any lower or very low income tenant residing in the units immediately before they were substantially damaged or destroyed is provided a right of first refusal consistent with the requirements in section 66300.6, subdivision (b)(4)(B).
10. For purposes of Government Code section 65590, projects to repair, restore, demolish, or replace any residential structure which contains less than three dwelling units substantially damaged or destroyed as a result of this emergency in any jurisdiction in Los Angeles County shall not be deemed "conversion or demolition of existing residential dwelling units" or construction of a "new housing development" if the repaired, restored, or replacement structure contains three or fewer dwelling units. To the extent any provision of section 65590 provides otherwise, it is suspended.
11. Health and Safety Code section 19851 is suspended in Los Angeles County for projects to rebuild, restore, demolish, or replace a structure substantially damaged or destroyed as result of this emergency, except that a County, or any city in the County, that duplicates a building plan maintained by the building department for a project subject to this paragraph shall require a person requesting the duplication of the plans to sign an affidavit containing the information in Health and Safety Code section 19851, subdivision (c)(2)-(3).
12. For the County of Los Angeles, the deadline to complete any rezonings required by Government Code section 65583, subdivision (c)(1)(A), section 65583.2, subdivision (c), and section 65583.4, subdivision (a), as pertaining to the County's sixth cycle housing element, shall be extended by 90 days.
13. With respect to efforts to repair, restore, demolish, or replace any properties or facilities substantially damaged or destroyed as a result of this emergency, Chapter 6 (commencing with section 1600) of Division 2 of the Fish and Game Code, and regulations adopted pursuant thereto, and Article 3 (commencing with section 2080) of Chapter 1.5 of Division 3 of the Fish and Game Code, and regulations adopted pursuant thereto, are suspended.

I FURTHER DIRECT that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 13th day of February 2025.
