

MEMORANDUM

DATE: April 13, 2026
TO: Mayor and City Council
FROM: *BHW* Brenda Harvey-Williams, Assistant City Manager
SUBJECT: TAC Support for the Reconnecting Pasadena 710 Vision Plan

The Reconnecting Pasadena 710 Vision Plan was presented to the Transportation Advisory Commission (TAC) SR 710 Northern Stub (SR 710) ad-hoc subcommittee on March 16, 2026, and to the full TAC on March 27, 2026. The 710 Vision Plan received unanimous support from TAC as detailed in the action below:

The Transportation Advisory Commission supports the 710 Vision Plan, with the following recommendations:

- That the 710 Working Group's recommendations be given great weight, and its members' voices--as the representatives of the community--continue to be heard at every phase of the implementation.
- TAC is particularly supportive of the Vision Plan's efforts to develop the 710 stub area with a focus on human-scale design with public/green spaces and pedestrian-friendly access.
- That the Department of Transportation continue to collaborate with Caltrans to study traffic volumes and how traffic impacts can be managed to achieve the goals of the Vision Plan.
