Councilmember Madison expressed concerns regarding the proposed project, citing minimal progress toward the development of the property for its intended use as a mental health services site in partnership with LA County. He advocated for the property to be solely utilized for affordable housing and market rate housing, and mental health services to be offered at alternative locations.

Discussion ensued regarding the real property negotiations, the initial funding strategy for mental health services, the County’s funding mechanisms, and creating affordable housing.

Councilmember Madison expressed concerns that having the County’s mental health services on the property may bring down the value of the property to the City and lessen the number of affordable housing units that can be built at that location.

Vice Mayor Rivas expressed support for the project and shared that the residents and neighborhoods surrounding the property are supportive of the proposed affordable housing and mental health services at the property.

Ronald Matthews, Pasadena resident, expressed support for the item and urged the City to apply the local workforce hiring ordinance to whatever project is approved to develop the property.

Adriana Bautista, Pasadena resident, expressed support for the proposed property to be utilized for affordable housing and advocated for clarity in terms of pricing for affordable housing units.

**Recommendation:** It is recommended that the City Council:

- (1) Find that the action proposed in the agenda report is not a “project” subject to the California Environmental Quality Act (CEQA) pursuant to Public Resources Code Section 21065 and within the meaning of State CEQA Guidelines Section 15378(b);

City Clerk Jomsky reported that 15 letters advocating for the City Council to protect tenants from discrimination, citing sensitive documents provided during the rental registration process, and providing rental related comments, and 1 letter advocating for the City Council to take action to defend and represent the City’s underrepresented immigrant community, were received by the City Clerk’s Office, distributed to the City Council, posted online, and made part of the public record for the item.

**QUASI-JUDICIAL ACTION: CALL FOR REVIEW OF THE BOARD OF ZONING APPEALS' QUASI-JUDICIAL DECISION TO APPROVE HILLSIDE DEVELOPMENT PERMIT NO. 7134 TO ALLOW A NEW 4,280 SQUARE-FOOT, TWO-LEVEL SINGLE-FAMILY RESIDENCE ABOVE A PARTIALLY BELOW GRADE 2,685 SQUARE-FOOT SIX-CAR GARAGE AT 1530 SCENIC DRIVE** (Planning Dept.)

**Recommendation:** It is recommended that the City Council:

(1) Find that the action proposed in the agenda report is categorically exempt from environmental review pursuant to State CEQA Guidelines Section 15303 (Class 3, New Construction), and there are no features that distinguish the project from others in the exempt classes, and therefore, there are no unusual circumstances; and

(2) Adopt the findings in Attachment A of the agenda report to uphold the Board of Zoning Appeals' decision and approve Hillside Development Permit No. 7134, with the conditions in Attachment B of the agenda report.

City Clerk Jomsky reported that 77 postcards were mailed, and 56 copies of the public hearing notice were posted on December 29, 2025. He also reported that 3 letters in opposition to the staff recommendation and advocating for the City Council to overturn the Board of Zoning Appeals (BZA) approval of the proposed hillside development permit, 1 letter advocating for the City to approve the proposed variances related to Permit No. 7134 only if other zoning requirements are met, and 3 letters expressing concerns related to potential environmental impacts and/or lack of adequate mitigation measures, and providing other comments on the matter, were received by the City Clerk's Office, distributed to the City Council, posted online, and made part of the public record.

Jennifer Paige, Planning Director, provided introductory comments on the item and Joseph Weaver, Planner, presented a PowerPoint Presentation on the item noting background information on the project, a recap of the BZA decision, project requirements and compatibility.

Councilmember Madison expressed concerns with the project regarding the size compatibility of the proposed garage, the average house size in the neighborhood, and the impacts this project will have on surrounding properties.

Sarah Lorenzen, architect representing the applicant, presented a PowerPoint presentation on the design plan for the proposed project and responded to questions.

John Callas, Pasadena resident, expressed concerns regarding the scale of the proposed project and the impacts on the shifting hillside, and emphasized that the sizing is not compatible with other homes in the neighborhood. Sharon Bober, Pasadena resident, also expressed her concerns regarding the project and highlighted the environmental impacts it will have on the local wildlife.

The following individuals expressed opposition and/or concerns related to the scale and the environmental impacts of the proposed project:

Dr. Martha Liao, Pasadena resident  
Dr. Nimala Balan, Pasadena resident  
Kristen Chen, Pasadena resident  
Angela Chen, Pasadena resident  
John Schreiber, Pasadena resident  
Alexandria Wiercigroch, Pasadena resident  
Chris Peck, Pasadena resident  
Stephen Lichten, Pasadena resident  
Daina Kasputis, Pasadena resident  
Ingrid Chu, Pasadena resident

Sandy Annala, Pasadena resident, provided comments noting that the proposed project would not impact wildlife.

Sharon Bober, Pasadena resident, spoke on and cited information from a 2009 City decision letter and environmental initial study on the property. She stated that the same potential environmental impacts still exist today.

Sarah Lorenzen, architect representing the applicant, reported that single family residences are not subject to CEQA review and that the house is located on the flattest part of the site so that it would not impact the hillside.

In response to Councilmember Cole's inquiry regarding the mitigated negative declaration that was previously required in 2009, Planning Director Paige reported that the City's Zoning Code has evolved since that point in time, and that standard mitigation measures, including archaeology and hydrology measures, are addressed through the building permit process.

In response to Councilmember Madison's inquiry regarding the residence not being subject to environmental review, Planning Director Paige clarified that the residence qualifies for a CEQA exemption, however, it does not mean that they are not subject to CEQA. She noted that if there was an exception to the exemption, such as a distinguishable feature, then the City could require additional environmental review.

In response to Councilmember Madison's concerns related to environmental and wildlife impacts of the project, Planning Director Paige reported that such issues have been analyzed by a biologist. She added that the vacant lot is in a developed hillside neighborhood, not in a natural wildlife corridor or a significant natural ecological area.

Discussion ensued regarding the City Council's 2017 decision to add guardrails for neighborhood compatibility to avoid mansionization, City staff's calculations for compatibility, and exemption criteria.

In response to Councilmember Lyon's inquiry regarding the context for compatibility, Planning Director Paige reported that the proposed project meets the City's requirements in terms of lot size, average floor area ratio (FAR), and hillside district standards, and does not have additional view impacts.
