- *Land Use Element Goal 14. Visitors. Pasadena is a major destination for tourists from throughout the world to celebrate its events, culture, history, and setting (Item 1).*

- *Housing Element Program 11 – Alternative Housing Opportunities – Review the current ADU standards and review process and evaluate how best to amend the Zoning Code to reflect State law while maintaining the character and quality of residential neighborhoods (Item 4).*

As note, the Amendments include adding medical offices as a by-right use in the MU-N zoning district in the SFO Specific Plan. This area includes several multi-story medical office buildings, which are now considered legal non-conforming. Omitting

medical uses in this zone was found to be an oversight when the SFO Specific Plan was adopted because the zone is close to Huntington Hospital and medical offices are permitted in all other similar zones throughout the City. Adding medical offices as a by-right use would benefit existing businesses in the area, provide jobs and foster economic development.

The other Amendments are considered minor in nature – they provide additional time to construct parade grandstands, clarify standards for walls/fences, allow barrier systems attached at the top of walls/fences in single-family zones, and complete “clean-ups” and technical changes for Accessory Dwelling Units, Temporary Uses and the Dwelling Unit Definition. These Amendments will ensure proper and consistent application of Zoning Code development standards and permitting procedures.

2. *The proposed amendment would not be detrimental to the public interest, health, safety, convenience, or general welfare of the City.*

The proposed amendments include adding medical offices as a by-right use in the MU-N zoning district in the SFO Specific Plan. Office uses are typically permitted by-right in commercial and mixed-use zoning codes, as they have lower impacts compared to other nonresidential uses (e.g., traffic, noise, service needs impacts, etc.). The other Amendments are considered minor in nature - they provide additional time to construct parade grandstands, clarify standards for walls/fences, allow barrier systems attached at the top of walls/fences in single-family zones, and complete “clean-ups” and technical changes for Accessory Dwelling Units, Temporary Uses and the Dwelling Unit Definition. These Amendments will ensure proper and consistent application of Zoning Code development standards and permitting procedures.

A diverse economic base with jobs for Pasadena residents will be fostered; existing businesses will be encouraged to stay or expand; affordable housing will be provided for the labor pool; the continued fiscal health of the city will be ensured.*

The SFO Specific Plan vision calls for the area to be a “creative, innovative and health-oriented mixed-use district that provides multi-family housing, neighborhood-serving amenities, medical services and educational and employment opportunities...” Major anchors of the area include Huntington Hospital, Keck USC, ArtCenter South Campus and the Fillmore A Line Metro Station. The proposed Amendment is consistent with numerous goals, policies and programs of the SFO Specific Plan including the following:

Vision Concept and Plan Vision for the MU-N zoning district:

- *Allow maximum housing and commercial flexibility to support eclectic character and incentivize housing.*
- *Create a mixed-use activity center near high-frequency transit that accommodates a diverse range of retail and services, prioritizing housing opportunities where people can walk to shop, restaurants, jobs and schools.*
- *Support projects that are entirely commercial, entirely residential, or a mix of the two, integrated either horizontally or vertically.*
