Dear Mayor and City Council,

I urge you to cancel any and all contracts with Flock. I can understand why the police department would like to have the power of surveillance that helps them fight crime, but this sort of power can easily be abused when it falls into the wrong hands. We have witnessed a regime in Washington which is very willing to break the law and grab whatever power it can. This level of surveillance gives far too much power to the police and the government. And we have seen that this company has already shared information with the federal government.

It is widely known that Flock has violated agreements in other cities regarding data sharing, and has refused to turn off and take down their cameras after cities cancel their contracts. Even though Flock said they wouldn't share license plate data with ICE or Border Patrol, they were caught doing it anyway. They cannot be trusted with our data, they don't follow California state law and do not care about our safety.

Bert Newton
Pasadena 91106

Dear City of Pasadena,

As a father of students at Blair High School I have heard concerns from students, staff, and parents, and am concerned myself about Flock cameras in general and specifically those installed in the vicinity of PUSD schools.

For the last year and a half ICE has been snatching our neighbors off the street, shooting protesters in the face, throwing pregnant women to the ground... Why are we enabling a privately owned fascist panopticon?
Eliminate ALL Flock cameras within the bounds of the City, starting with those that target our schools.

This is unacceptable, and you won't be hearing about it from those who are afraid, so remember that as a citizen there are hundreds of people more afraid than me to speak up who feel the same.

City Council Member,

To the Pasadena City Council,

Pasadena is a wonderful place to live. You all know this.

I've only been here a few years, but I've seen how we've pulled together through tragedy after tragedy...the Eaton fire, ICE raids, and yet we all continue to show up for each other. And as fellow citizens of Pasadena, you know that community safety comes from getting to know our neighbors, NOT an expensive contract with Flock.

I urge you to end warrantless mass surveillance like Flock Safety cameras. Automated license plate readers (ALPR) are dragnet surveillance tech that tracks everyone indiscriminately without a warrant and without suspicion of crime.

While Flock, some law enforcement, and government continue to defend mass surveillance for public safety, they are subjecting the general public to surveillance without consent that threatens our right to privacy and our civil liberties. This is not the kind of society we want to live in. Pasadena constituents have made it very clear.

Rather than spending our tax dollars on dystopian and dangerous surveillance technology, Pasadena needs to restore trust, uphold our constitutional rights, and invest in resources that are proven to keep communities safe. End ties with Flock, don't replace them with another vendor, and commit to fund community-based safety programs instead.

I'm calling on you to join the dozens cities and towns across the country that have cut ties with Flock.

Caitlin Carlson

Pasadena, California 91101

Hello,

I shop in Pasadena regularly and I do not want to be surveilled by Flock cameras or any other ALPR cameras. The unconstitutional invasion of privacy does not make anyone safer, it does not do the very real work of police preventing and investigating crimes.

The error rate is high and the date is being misused.

Please vote no on all surveillance cameras and license plate readers.

Thank you,
Julie Williams

You don't often get email from rn why this is important

[⚠] **CAUTION:** This email was delivered from the Internet. Do not click links or open attachments unless you ***know*** the content is safe. Report phish using the Phish Alert Button (PAB). For more information about the PAB view article "KB0011474" on the DoIT portal.

Hello Mayor Gordo,

I work in Pasadena and I am writing to you to urge you to vote against Flock and other license plate readers in the city. I am urging you to vote NO on Item 9 and reject Flock and to immediately turn off and cover the ALPR cameras across Pasadena. Do not spend one more dollar into expanding a mass surveillance system with such an untrustworthy vendor like Flock.
It is widely known that Flock has violated agreements in other cities regarding data sharing, and has refused to turn off and take down their cameras after cities cancel their contracts. Even though Flock said they wouldn't share license plate data with ICE or Border Patrol, they were caught doing it anyway. They cannot be trusted with our data, they don't follow California state law and do not care about our safety.
Warrantless mass surveillance like Flock and other ALPR undermine civil liberties, and puts all of us at risk. This is not the opportunity to sell us on more surveillance like Real Time Crime Centers. Don't get left behind while hundreds of other cities across the nation are rejecting Flock.

Sincerely

Levi Nunez

To whom it may concern at the City Council of Pasadena,

I am writing to object to the funding/contract of Flock surveillance cameras in Pasadena — this technology is a threat to civil liberty and privacy, and any use of it by the PPD will no doubt contribute to the unlawful and inhumane deportations and other violent activities by ICE agents in the community. I write to echo the demands outlined by DeFlock Pasadena:

- Disable and remove all Flock Safety cameras around Pasadena;
- Commit to canceling the contract with Flock;
- Does not replace Flock with another ALPR vendor; and
- Commit to using the money instead to fund community-based safety initiatives.

take care,
Sylvie

Thank you for posting the massive numbers of emails against mass surveillance in our community in such a timely manner. Because of the large number of emails submitted through a mass email campaign, we're providing a tally sorted by city. Duplicates have been removed. **This tally does NOT include the large number of emails that were sent directly and not via the email campaign.**

797 emails from unique senders sent as of early afternoon on 11/17/206

- **585 from Pasadena residents (nearly 75%)**
- 43 from Altadena residents
- 17 from Alhambra residents
- 16 from South Pasadena residents
- Remaining sent almost entirely from other residents of Los Angeles County, including Los Angeles, Glendale, Monrovia, Monterrey Park, Sierra Madre, etc.

Please post the attachment as part of the public record for item 9. I have redacted email addresses. Council already has the email addresses.

Humaira
Pasadena resident

I oppose the contract with flock.

It is too expensive. Our community funds can be better spent.

It is Ineffective: As long as police enforcement is slack, why have people tracked, if the police don't respond?

It is an invasion of people's privacy. In the wrong hands, it is harmful.
Thank you
Rose Malmberg

City Council Member,

I urge you to end warrantless mass surveillance like dystopian Flock Safety cameras and not turn Pasadena into a nanny state. Automated license plate readers (ALPR) are dragnet surveillance tech that tracks everyone indiscriminately without a warrant and without suspicion of crime.

While Flock, some law enforcement, and government continue to defend mass surveillance for public safety, they are subjecting the general public to surveillance without consent that threatens our right to privacy and our civil liberties. This is not the kind of society we want to live in.

Rather than spending our tax dollars on dystopian and dangerous surveillance technology, Pasadena needs to restore trust, uphold our constitutional rights, and invest in resources that are proven to keep communities safe. End ties with Flock, don't replace them with another vendor, and commit to fund community-based safety programs.

I'm calling on you to join the dozens cities and towns across the country that have cut ties with Flock. Take a stand against Big Brother and keep dystopian surveillance out of Pasadena.

Emmanuel Gomez

Dear Vice Mayor Rivas,

Thank you for your leadership in addressing Pasadena's use of Flock/ALPR tech. I agree with your point of view, I appreciate your advocacy to agendize a full council discussion, and I am grateful that you are encouraging your constituents to weigh in.

Sincerely,
Jen Collins

Hello,

My name is Danielle Galván Gomez and I've been a resident of Bungalow Heaven for 30+ years. I am writing in opposition to the Flock contract Pasadena city is considering renewing and against renewing the contract with another surveillance organization or company.

Constant surveillance of your citizens is a violating of our constitutional right to privacy and additionally puts our most vulnerable communities at risk of harm or over policing.

I've watched in horror as more and more of these cameras have appeared where I live, walk, shop, worship, and even near my gym and other recreational areas. Other police departments ments are using and sharing the data to target immigrants with ICE, log the movements of journalists and other persons of interest, and to facilitate domestic violence by stalking their partners. Warrantless mass surveillance and data mining doesn't keep anyone safe, it makes our communities places to be wary and endangers the vulnerable instead of places where we can be free and autonomous. Pasadena is a place I've called home for many years and I want to continue to live in, but we must reject participation in a culture of mass surveillance and in a democracy where our rights are constantly chipped away at. Please reject this contract and any future contracts that use this technology.

Thank you for your time and consideration.

Best,
Danielle

Dear Councilmembers

I write to urge to you listen to the public when we tell you we do not want Flock cameras or any other ALPR in our community. Please revoke / reject any support of Flock or other mass surveillance tools by the Pasadena Police Department.

These cameras and their databases are a violation of our individual right to privacy. The database of information they collect would require a warrant under any other circumstance and it is just a matter of time before the courts of law catch up with this. By engaging Flock, a vendor that has been proven untrustworthy, you are exposing the city to potential lawsuits for privacy violations and warrantless search issues.

These cameras do not make anyone in our community safer - instead they are open to abuse by ICE and other outside agencies. No resident or visitor to Pasadena has consented to be tracked like this. I do not believe it should have been up to the City Council to have approved these cameras in the first place. It should have been put to the public to decide.

Please reject Flock, cancel any contracts, and immediately have the cameras removed.

Thank you,

Aurore Wright

To whom it may concern,
The residents of Pasadena do not want to be under constant surveillance via flock camera or any other system. We do not consent to widespread ALPR technology in our communities. If put to a vote by the people, it would not pass. It is a violation of the Fourth Amendment, constituting a warrantless search. In addition, a number of incidents nationwide have shown that law enforcement officers abuse access to the system. There is also the issue of misidentification that occurs resulting in arrests without cause.

Ultimately, this technology does not make communities safer and frankly, no one wants it.

This is a public safety issue, and government surveillance creates a dossier of every one of us, which can then be used to target us. Expanding surveillance endangers everyone who lives, works, and visits Pasadena —*while failing to give us real public safety.*

The November 17th agenda materials are signaling to the public that Flock is only the start....Pasadena PD will try to expand the surveillance state extensively and more invasively with the Active Intelligence Center, which is their code name for a Real Time Crime Center. Read more here about this dystopian Minority Report system.

We have already seen how federal agencies accessed California data like Oakland, San Francisco and Chula Vista, and how countless officers abuse the system like San Diego and others despite "safeguards" and "guardrails".

Hundreds of cities and counties across the U.S. have already cut ties with Flock over mounting concerns about their horrible data security, high costs, illegal activity, Flock being an untrustworthy company, technology errors, and the liability risks it poses to municipalities. Flock makes money on our data, but we the taxpayers are on the hook for misuse and abuse.

Every dollar spent on Flock and other surveillance is a dollar not spent on proven solutions that keep our communities safe: *stable housing, violence interruption, and health care.*

Let's put an end to Pasadena's surveillance shopping spree!

To the Mayor and City Council Members of the City of Pasadena:

We are Pasadena residents and homeowners in District 1. We do not support the City having Flock or other AI powered ALPR technology in use in the City. Cancel this contract at the earliest possibility. Mass surveillance and tracking is not why people move to, stay in, and love Pasadena. We do not want Pasadena further militarized. These tools have a greater negative impact on the practice of individual rights and freedoms than they do in the support of law enforcement. They have proven to be abused and the data should not be collected or available in the first place.

Please listen to your constituents and demonstrate that you are in those seats for our interest.

Dear City Council,

I am writing on behalf of myself as well as my wife and son to express our strong and unequivocal opposition to any extension or renewal of the contract between Flock and the City of Pasadena.

Our cherished city does not need Flock, and we the residents do not want Flock. This technology constitutes an incredible invasion of privacy. In many cities and states across the nation, individuals with access have abused this technology to stalk others.

The contract should be terminated as soon as possible and never renewed.

Furthermore, Pasadena should also avoid adopting a similar or related technology provided by one of Flock's competitors like South Pasadena is planning to do. We are a hard no on all such unnecessary and intrusive surveillance technology. Keep it out of Pasadena!

Dear Mayor Gordo and Councilmembers,

I urge you NOT to renew the Flock camera contract. There's too much room for abuse and we don't have the controls in place to prevent misuse. I'm opposed to all ALPR systems. They are too big of a reach by monitoring the day to day travel of everyone. Please do not consider any other ALPR systems to replace Flock.

Thank you.

Sincerely,

Colin Bogart

To the Pasadena City Council:

I live in Normandie Heights, and I'm writing about Item 9. End the Flock program. Don't exercise the remaining renewals, let it lapse when current funding runs out in February 2027, and don't replace it with another license plate reader vendor. South Pasadena has already started pulling out of Flock. Pasadena should follow.

For years, my neighborhood has been told by Code Enforcement, PPD, and DOT that they don't have the resources to deal with the problems we see constantly: speeding, parking violations, and code violations. If the City can't afford to respond to its own residents, it can't afford a tracking system that does nothing about those problems.

Flock isn't local enforcement. It's resident tracking. Its cameras photograph every car that passes, not just suspects, and log when and where each one was seen, building a searchable record of where residents go. Pasadena keeps that data for 30 days, more than four times the seven-day default Flock itself now recommends. Abuse of this kind of data is a growing problem (Southern California, Texas, Illinois, Washington state), from illegally sharing it with federal immigration authorities to officers using it to track people they know. A policy is only as strong as the next people in charge. The safest data is data that's never collected.

The City already collects data it doesn't use well. Resident reports about the issues above go unanswered, and the systems for submitting and tracking them don't work. Fix those first. Up to $152,500 is planned for this renewal. Spend it on responding to the people who live here, not on tracking them.

The staff report offers one recommendation, continuing with Flock, and no alternatives. Choose differently. End it.

Bradford Tesar
Pasadena resident, Normandie Heights

I strongly oppose the use of Flock cameras and believe that Pasadena should immediately remove all existing cameras and terminate its contract with Flock Safety. Just as importantly, I urge the city not to replace this technology with any other form of automated license plate-reading or mass surveillance. Our community deserves privacy, not the constant tracking and monitoring of its movements. We should be investing in public safety in ways that protect our residents' rights, freedoms, and civil liberties.

Sincerely,

Karen Skelly

Dear Hon Mayor Gordo and Council Members:

I support ALPR technology and believe there are strong reasons to continue to use it, with appropriate safeguards. Whether Flock is the best company remains an open question.

ALPR technology is one element in a system to prevent and solve crimes. If ALPR cameras can help find an abducted child or a kidnapped person, track down homicide or robbery suspects, or recover a stolen vehicle, I am willing to sacrifice some privacy, with safeguards,

Security cameras are deployed throughout our city: household Ring-type cameras, cameras in stores and parking lots, metro stations, etc. One might be surprised how often one is "on camera".

Perhaps ALPR cameras can be thought of as insurance. The time to have confirmed one's insurance is before an incident. Having no insurance is usually a mistake. Of course, getting the policy provisions right is important.

Pasadena hosts major events. Were there to be a major security incident, and the City had removed cameras, there would certainly be an "after action" on whether that decision might have unintentionally hindered investigations. Crisis communications are hard enough.

There should and must be effective protections for access to information generated by cameras, and its use, including with whom it is shared. If Flock does not provide those protections, then we should require that they do.

If the Council does decide to end the City's contract with Flock, or prohibit ALPR cameras, any policy should be written narrowly to ALLOW the possible future use of red light and speed cameras, both of which we need here in Pasadena to combat dangerous drivers, and which operate on a different basis than the Flock system.

Respectfully,

P.A. Brown
District 6

McMillan, Acquanette (Netta)

Re Flock:

I am a resident of Pasadena, District 5. Community members have been communicating our concerns regarding Flock mass surveillance to the city council for a long time.

If the city is unwilling to fully terminate the Flock program, immediate steps must be taken in the right direction. Specifically, you must immediately shut down external access to the Flock cameras in Pasadena. Our community remains vulnerable to outside agencies accessing and using this data.

Pasadena should respect privacy rights and refrain from using mass surveillance. I urge you to disable external access immediately, cancel the Flock contract, and remove these cameras from our city.

Sincerely,
Spencer Skelly

I live in Pasadena, I do not want to be under constant surveillance thru those flock cameras or any other system. I don't consent to widespread ALPR technology in our communities. If put to a vote by the people, I hope that it doesn't pass. It is a violation of the Fourth Amendment, constituting a warrantless search. In addition, a number of incidents nationwide have shown that law enforcement officers abuse access to the system. There is also the issue of misidentification that occurs resulting in arrests without cause. it reminds me of those cameras that they put on lake and Union many years ago.there, If you pass a red light you'll get a picture taken. There was constant car accidents in that area due to drivers, getting scared. The camera might activate,and I can only hope that nothing similar to that happens ever. Again, thank you for your attention in this matter.

Ultimately, this technology does not make communities safer and frankly, no one wants this.

Sincerely,
Gio. Sent from my iPhone
