

CITY COUNCIL
CHRIS HOLDEN
COUNCILMEMBER
DISTRICT 3

January 31, 2000

TO: Mayor Bill Bogaard

FROM: Councilmember Chris Holden 

SUBJECT: Request to add "Discussion of Potential Moratorium for Uses in the Mid and Lower Arroyo" to the February 7 or 14 Council Agenda

The basis for the discussion would be the Council putting some controls on the uses that would come into the area prior to the Council taking action on the Master Plan and EIR being prepared.

The Council continues to be presented with some very exciting opportunities for the City in the use of the Arroyo Seco, but these uses always seem to put us at odds with the neighbors who have concerns on the impact that these uses bring. Any new uses brought to the Council for discussion would not be decided upon until such time as the Master Plan and the EIR have been decided on by the Council. Therefore we remove the temptation for the Council to add another use prior to the completion of the Master Plan and the EIR.
