Re: 50% Recycling

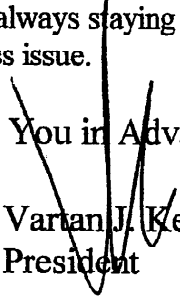

Patriot Services Inc. is a family owned and operated company started by Vartan Keuroghlian & John Keuroghlian. The current customer list consists of over 300 for the Los Angeles County. The percentage of residential customers is 15% over 85% of commercial customers. We operate six sanitary disposal trucks. For recycling purposes we use pickups or frontloaders. Our contact with all of our customers is one on one customer service. We have trained our drivers to be alert and inform us for any recyclable materials in our bins.

The goal of Patriot Services Inc. is to recycle over 50% of the waste in the City of Pasadena. We have a small numbers of customers, but we still work with them to place the best suitable recycling program for them. We plan to maintain our recycling percentage over 50% and this is how.

Construction/roll-off: We provide separate boxes for different needs. Low boys are provided for concrete, asphalt, dirt which are all part of recycling. Larger boxes are for trash, waste construction, or for recyclables from construction. We use American Waste c/d center, La Puente MRF and Commerce Burner for all recycling needs. Green Waste is also a big part of our recycling as we work with our landscapers and contractors.

We have already reached our goal of recycling over 50% with the help of our customers. We plan to exceed this number by always staying in contact with our customers by phone constantly on any of our business issue.

Thank You in Advance,

Vartan J. Keuroghlian
President
